

Camping Arts and Crafts

Activity: Travel Tray Craft

Turn an old cookie sheet into a fun activity tray!

Time: 10 minutes (not including drying time)

Materials:

- Large, Metal Cookie Sheet
- White Con-Tact Paper
- Chalkboard Con-Tact Paper or Chalkboard Paint
- Dry Erase Markers
- Chalk
- Small piece of cloth
- Large Envelope (at least 6' X 9')
- Scissors

Cut a piece of each kind of Contact paper to cover a side of the cookie sheet. Cover one side of the cookie sheet with the white Con-Tact paper. Cover the other side with the chalkboard Con-Tact paper or paint it with contact paint. Place the dry erase markers, piece of cloth and chalk in the envelope.

You can use the dry erase markers on the white side of the cookie sheet, and the chalk on the chalkboard side of the cookie sheet. Keep your cloth handy to wipe them clean. The tray can also be used as a surface to play cards and other games. Some cookies can be used for magnets; such as magnetic alphabet letters!
